

# The SAT<sup>®</sup> by Graduation Year

The last administration of the current SAT<sup>®</sup> will be January 2016. The first administration of the redesigned SAT will be March 2016.

## Class of 2016

Most students in the class of 2016 will take the current SAT in order to meet college application deadlines in December 2015 and January 2016. These students should continue to visit the SAT website to register for the test and to get and send their scores.

For a small group of students who plan to take the SAT in the spring of their graduating year, the redesigned SAT will be the test they take.

## Class of 2017

These students will have a choice of whether to take the current SAT during the October, November, December 2015, or January 2016 test administrations OR to take the redesigned SAT starting in spring 2016.

Students in this class will be the first to take the redesigned PSAT/NMSQT<sup>®</sup> (October 2015) as juniors. To take advantage of the preparation provided by the redesigned PSAT/NMSQT, we recommend that students take the redesigned SAT in the spring. This will leave plenty of time to take the test again, if desired, in the fall of their senior year before applications are due.

## Getting Ready

Students can access free College Board resources to get to know the test and start practicing:
