

Classlink/My.keyschools.com is the MCSO Single Sign on/Password solution. Through my.keyschools.com, staff and students are able to access all digital curriculum from one location without the use of a separate login for each program. Access is simple, just visit

MY.KEYSSCHOOLS.COM

Access in one of the following ways:

Keys schools Website	Keysstudents.net Bookmark	Computer/Chromebook Shortcut
		

You will need to sign in with your computer credentials upon entering the site when signing in from a Chromebook or non-district managed device.

Credentials	Username	Password
Teacher	Lastname first initial	Computer Login
Student	First initial last name	44 lunch# 0

There are two different ways to use my.keyschools.com; single sign on and as a password protector. Please reference the chart on the next page for specific details.

Please note that additional programs are being added daily. As updates are available, you will be notified, however all sign on options will originate from my.keyschools.com

Password Locker Applications

In these applications, due to security, you will be asked to enter your username and password one time only (students and staff). The password locker will save the username and password globally.

On the desired app, right click and select update password.

Under Extension Locker, select Add (example below).

Extension Locker - McGraw-Hill ConnectEd ×

Add

Name your locker, you do NOT need to add the web address.

Type in username and password as shown below and Save.

Close the window and single left click the Icon on your dashboard.

Application	Icon	Username	Password
