Monroe County School District

Press Release: September 23, 2021

The Monroe County School District is aware of the new Emergency Rule issued by the Florida Department of Health Wednesday afternoon regarding changes to quarantine rules for students.

The rule, which can be found at <https://floridahealthcovid19.gov/wp-content/uploads/2021/09/64DER21-15.pdf>, gives parents a choice whether or not to quarantine a student exposed to Covid-19 who is not exhibiting symptoms of the disease.

MCSD will comply with the Emergency Rule, signed by State Surgeon General Joseph Ladapo. The district urges all parents, particularly those with students who are known to have been exposed to Covid-19, to continue to monitor those students closely for symptoms of Covid-19 and to keep them home if they show any symptoms at all.

"Our main goal is to keep students and school staff safe from disease so they can continue to attend school every day," said Superintendent Theresa Axford. "We need everyone to work together toward that goal. We encourage everyone to continue to wear masks while indoors, practice safe-distancing, cleanliness and to be vaccinated if eligible. These are the steps we know will help us to reach our goal of keeping our schools healthy and operating at their full capacity."

Thank You!
Thank you for all
of your support
