

***All students have access to e-books through Destiny from the Coral Shores Media Center.

You might want to add this information to your teacher pages.

In order to log in, students should:

Go to Keysschools.com and click on the **FOR STUDENTS** tab on the right side of the screen.

When the links page comes up click on **DESTINY**.

This will take you to a screen that shows all the district schools. Click on **CORAL SHORES HIGH SCHOOL**.

This will take you to the Destiny Quest main page. In the upper right side click **LOG IN**.

Your username = firstinitiallastname

Your password = 44lunchnumber0

This will take you to the Destiny Discover page. You have to scroll down to see the e-books.

The only students who might have trouble are those that have a first initial last name that matches another student. In that case there is probably a number attached, but if anyone has a problem, please have them email me at joanne.haddad@keysschools and I will go into the system and make sure they are able to log in.

Also remember that we have the Lightbox books that offer (not the novel itself) but great resources and learning tools for the following novels:

An infinite number of students can access these books at the same time.

To Kill A Mockingbird

Catcher in the Rye

Night

The Great Gatsby
